

**Aim:**

To design a suitable **data model and user-friendly forms** for a business application using Zoho Creator.

**Requirements**

- Computer/Laptop
- Internet connection
- Zoho Creator account
- Web browser

**Procedure**

1. Log in to **Zoho Creator** and create a new application named **Loan Application**.
2. Create a blank form named **Loan Application**.
3. Add sections such as **Personal Details, Contact Details, Income & Employment Details and Loan Details & Consent**.
4. Drag and drop suitable fields such as **Name, Date, Email, Phone, Address, Number, Dropdown, Multi Line, Time and Checkbox**.
5. Configure field names, dropdown choices and mandatory fields.
6. Arrange the fields in a user-friendly order.

7. Save the form and enter sample loan application data.
8. Verify that the submitted data is stored correctly in Zoho Creator.

This screenshot shows the Zoho Creator form builder interface for a 'Loan Application' form. The 'Basic Fields' panel on the left contains icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, and Drop Down. The main form area displays the 'Personal Details' section with the following fields: Applicant Name (text), Date of Birth (date), PAN Number (text), Contact Details (header), Email Address (text), Contact Number (text), Residential Address (text), Income & Employment Details (header), and Employment Type (text). The 'Field Properties' panel on the right shows settings for the 'Applicant Name' field, including its name, link name, validation (Mandatory, No duplicate values), initial value, character maximum (80), and data privacy (Contains personal data).

This screenshot shows the Zoho Creator form builder interface for the 'Loan Application' form, displaying the 'Loan Details & Consent' section. The 'Basic Fields' panel on the left is the same as in the previous screenshot. The main form area displays the following fields: Employment Type (text), Monthly Income (text), Existing Liabilities (text), Loan Details & Consent (header), Loan Type (text), Purpose of Loan (text), Preferred Callback Time (text), and Credit Check Consent (text). The 'Field Properties' panel on the right shows settings for the 'Applicant Name' field, including its name, link name, validation (Mandatory, No duplicate values), initial value, character maximum (80), and data privacy (Contains personal data).

## Result

A suitable **data model and functional forms** were successfully designed in Zoho Creator for a business application, demonstrating how low-code tools simplify data management and form development.
