Setting up a Zoho Creator account and exploring the platform
architecture and interface

Aim:

To create a zoho creator account and explore its platform
architecture, features and user interface

Requirement:

Hardware Requirements

- Computer or Laptop
- Minimum 4 GB RAM
- Stable Internet Connection

Software Requirements

- Operating System: Windows / Linux / macOS
- Web Browser: Google Chrome / Microsoft Edge / Mozilla
Firefox
- Zoho Creator Account
- Zoho Creator Platform

PROCEDURE:

- 1)Open Zoho Creator and create/sign in to a Zoho account.
- 2)Open the Zoho Creator dashboard and explore the main interface.
- 3)Create a sample application using the **Create Application** option.
- 4)Explore the application components such as **Forms, Reports, Pages, Workflows and Dashboards**.
- 5)Navigate through the application builder and observe the available drag and drop features.
- 6)Explore the settings and application management options.

Result:

The Zoho Creator account was successfully set up and the platform architecture and interface were explored. The basic components and low-code development features were identified.
